Notice of Dissolution.

Notice is hereby given that the copartnership heretofore existing between W. C. Peterson and A. Umphrey, under the firm name of Peterson & Umphrey, doing real estate and insurance business at Lebanon, Oregon, is hereby dissolved by mutual consent, Mr. Umphrey having disposed of his interest to R. H. Ross. All accounts due said firm of Peterson & Umphrey are payable to W. C. Peterson who incurs no responsibility for all indebtedness of said firm.

Witness, this 10th day of October, 1894.

W. C. Peterson,
A. Umphrey.

STATE AND COAST.

Taken From Our Exchanges Through-
out the Northwest.

J. B. Wisley, of Medford, want
the blue ribbon for a 130-pound
squash.

There are 22 dairymen in Curry
county north of Port Orford who
milk in the neighborhood of 1,200
cows.

Thomas McAndrew, of Medford,
is exhibiting a mammoth squash,
which tips the beam at 140
pounds.

The hog market is lively in
Jacksonville. Three cents and a
half a pound is being paid for live
porkers.

W. C. Brown is taking 75 mules
from Lone Rock, Gilliam county,
to Louisiana, to sell to the cotton
planters.

Robberies are getting numerous
in Eastern Oregon. The store of
Wilcox & Co., at Haines, was robbed
by masked men Tuesday night, the

clerk being held up at the point of
three revolvers. Only \$4 50 was
secured.

The placer miners in Jackson
county are nearly all ready for ac-
tive operation and are anxiously
looking for rain.

Hascall, Warner & Co.'s sawmill
at the head of Birch creek, Uma-
tilla county, burned Thursday; loss
\$1,300; no insurance.

In Port Orford they say that
Curry county boys have the repu-
tation of being the best seal hunt-
ers in the North Pacific waters.

The frost has played havoc
among the grapes remaining on
the vines in Southern Oregon, and
the shipping season is about over.

It seems the Umatilla county
horse thieves are not all in the
pen yet. E. J. Horton, of Pendle-
ton, lost a band of 10 Monday
night.

The Walker-Campbell hopyard
at Jenkins Point, Lane county, has
just turned out 2,300 bushels of
potatoes from 20 acres as a second
crop.

At the McMinnville gathering of
Indian war veterans 38 names were
enrolled for Yamhill county. No
one of them is less than 55 years
old.

Wheat still pours into The
Dalles warehouses, and hardly an
hour passes that wagons are not
unloaded. The price is still
quoted at 35 cents per bushel.

The Salem grangers have had a
committee investigating the county
records. They have found \$8,593.
68 in allowances to the assessor,
and thereat much perturbed.

The Mitchell Monitor appears as
announced. It is first for Smith
and McGee and second for Sutton
county, the dream of that portion
of Crook.

Jesse D. Carr & Son, of Klamath
county, will next year construct a
reservoir, capable of holding
39,000,000 gallons of water, to be
used in irrigating alfalfa lands.

Professor Kanematz, the Curry
county expert, has received 40,000

or 50,000 silkworm eggs from Ger-
many, through a silk specialist at
Akron, Ohio. He also received a
pound of cocoons.

Potatoes weighing three pounds
each, or 14 of them pulling down
40 pounds, is the kind raised by
Robert Howe from his farm just
above Dallas. Last year he did
the same thing.

R. Fogg, an ex-convict with lar-
geous proclivities, has been ar-
rested at Pendleton, under suspicion
of having been concerned in the
murderous assault on Postmaster
Isaac at Helix.

The Minnehaha Irrigation Com-
pany, recently organized, has filed
application with the Umatilla
county court for 20,000 inches of
water, to be taken out of the Uma-
tilla for irrigation purposes.

The agricultural college people
will hold a farmers' institute at
McMinnville, December 14 and 15.
Practical agricultural and horticul-
tural topics will be discussed. Pro-
fessors Bloss, Washburn, Shaw and
French will participate.

By order of the presbytery, the
Umatilla Indian Presbyterian
church on the reservation has been
declared vacant, Rev. Mr. Noyes
having been dismissed. The church
has about 60 members, and an
attempt will be made to secure
another pastor.

Ex-Sheriff Shattuck, with his
two sons and Nime Reynolds, have
returned to Grant's Pass, from a
fortnight's hunting trip in the
mountains about the head of Grave
creek. They killed 27 head of deer
which they have salted down for
winter.

The Indians of the Siletz reser-
vation, who recently received their
pay from the government for their
interest in certain, are putting the
coin into circulation. They have
paid out several hundred dollars
for horses around Corvallis during
the past week.

Brownsville has been called
upon to mourn the loss of two of
its aged and respected matrons,
Mrs. H. J. C. Averill, who died on
Nov. 19, at the age of 78 years, and
Mrs. Dodson, who died on Nov. 21,
at the age of 82 years. Both were
highly respected and beloved and
will be deeply mourned.

Miss Nellie Stevens, whom the
populists elected as school superin-
tendent of Union county by a ma-
jority of 69 votes, has proven vic-
torious in her contest with J. L.
Carter, the present incumbent, and
the republican candidate for re-
election, Judge Clifford, of the cir-
cuit court, having decided in her
favor.

Ed Marshall and W. J. Furnish
are putting up sheds and racks on
the river, just above Pendleton, for
the purpose of feeding a band of
8,000 sheep during the coming win-
ter. Beside straw it is estimated
that it will require between 15,000
and 20,000 bushels of grain to win-
ter the flock.

At the end of Dr. Bushong's ser-
mon at Astoria, last Sunday even-
ing, the reverend gentleman put
the question of closing the saloons
on Sunday to a vote, and over
three-fourth of those present voted
in the affirmative. The church
was crowded to its utmost capacity
and is said to have contained the
largest congregation ever assembled
in its history.

J. B. Tillotson, of Albany, the
successful bidder on the Waldo
bridge went out last week to begin
construction. He is sure of finish-
ing the structure by the 15th of
December though he has until the
1st of January to do it in. After
the latter date he is to pay \$10 a
day for each day's delay. The
lumber will be obtained at Ste-
ven's Mill, Grant's Pass, Oregon.

Penoyer Jabs Cleveland Again.
Governor Penoyer, in speaking in
reference to Japan's reply to the
offer of mediation by this government
said: "I see that the Japanese govern-
ment has followed my example in
reminding President Cleveland to at-
tend to his own business. For the
sake of the country the president
really ought not to have allowed him-
self to be lectured by the Japanese."

VALUABLE ADVICE.

Secretary C. A. Tonneson, of the
Washington state board of horticulture
has just issued a circular which con-
tains the following valuable informa-
tion:

During the past season the insects
injurious to horticulture have been
kept from spreading extensively in the
Pacific Northwest, both in being
checked by the weather which was
unfavorable for their increase, also by
the prompt application of the solutions
recommended for summer spraying,
when the pests began to appear in the
spring, and by the aid of more nume-
rous lady-bugs.

It is essential for all persons in this
state who have fruit trees now growing
and all who are planting orchards
to exercise the most diligent care, mak-
ing it a special duty to prohibit the
importation of fruit pests, and in every
way so far as possible, prevent their
spread by exterminating those found,
if any, each on their own premises.

The board required that nurseries
in this state, and the nursery stock which
is imported and offered for sale or dis-
tribution, must be inspected, and if
found to be infested with injurious in-
sects, that it shall be disinfected.

Those who are receiving trees for
planting from nurseries, agents or
dealers should require that said nur-
sery stock be free from pests. Certifi-
cates are given by members of the
board to those selling, whose stock has
been inspected in this state.

The remedy found to be most satis-
factory as a winter wash, which has
been employed to destroy San Jose
scale, woolly aphis and the larvae of
other injurious insects, both in our
sister south on this coast and also by
some of the largest orchardists in this
state, is: Unslacked lime, 40 pounds;
sulphur (best powdered) 20 pounds;
salt, 15 concentrated lye (America Lye
Co. brand), 2 pounds; water to make
60 gallons.

The good advice contained in the
above applies as strongly to Oregon as
to our sister state and should be put
into practice here with energy and dis-
patch. Eternal vigilance is now the
price of good clean fruit in this state,
and only by constant care and watch-
fulness can we hope to place our fruit
where Oregon fruit should be.

We need more active horticulturists
and more local boards, and as well,
more stringent laws looking to the
destruction of the numerous pests
which injure our fruit. We can easily
lead in the fine fruit line if will, but
to do so we must get rid of the pests
which infect our orchards. There are
by far too many old run-down and
run-out orchards, in this country es-
pecially, to furnish breeding places
for pests, to have much success in
keeping new plantations clean, unless
some means can be formed to getting
rid of these breeding places.

There ought to be pride enough in
our people to cause them to clean up
or destroy these old orchards, but if
there is not, we certainly ought to
have laws stringent enough to effect
that end, and then see that they are
put in force. A hint in this line to our
legislators may wake them up to the
interests of the people, but the most
necessary thing is for the people to
wake up to their own interest and
make the move without waiting for
the law. Form local boards of horti-
culture in every precinct, organize a
county board and thus help on the
work of the state board, and build up
our fruit industry.

E. C. PHELPS.

A Patent Ticket.

A San Francisco dispatch says:
"C. A. Harp, of Junction City, Or.,
and E. T. Waugh, of Eugene, both of
whom are railroad ticket manipulators
of much experience and skill, have
invented and patented a mileage
ticket for passengers, which is adapted
for all local business on any railroad
system. The passenger who desires to
go to a place fifty miles distant buys
a ticket good for fifty miles. The
name of the station is not on the
ticket. In fact one feature to recom-
mend the new idea is that it does
away with the necessity of printing a
great variety of tickets to suit the
needs of any system. It saves money
for printing and also saves clerk hire.
The ticket agents generally think well
of it."

Another River Boat.

The steamer Gray Eagle, which is
being built at Newberg, is 110 feet long
with 20 feet 4 inch beam. She is a
freight and passenger boat a draught
of 14 inches. The owners of this new
boat are Captain Carey and Engineer
Kemp, of Corvallis. The engines and
the boiler in the Gray Eagle are what
used to be in the Aneta, the owners of
the Gray Eagle having purchased the
Aneta and having transferred her ma-
chinery to the new boat. This is the
same machinery that was used in the
steamer R. C. Young, which it will be
remembered, was burned some time
ago at Dove's Landing, in order to
secure the insurance. She will be
ready for work in about three weeks
and will ply on the upper Willamette.
—Salem Journal.

Active Railroad Freight.

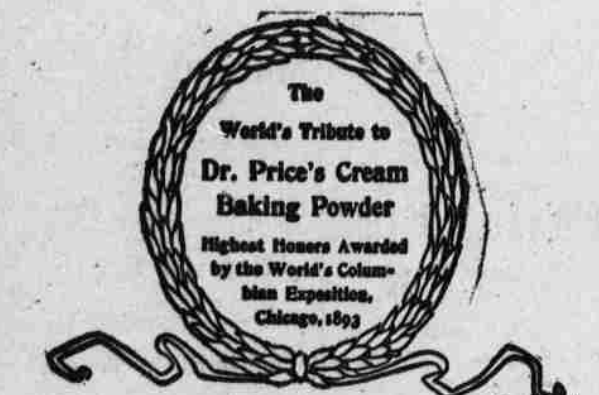

The Ashland Tidings has this con-
cerning the large freight business be-
ing handled by the S. P. R. R. in Ore-
gon: There has been continued activi-
ty in the S. P. freight yards at Ash-
land the past week. The regular
freight trains from the north have
been coming in here with long strings
of from 40 to 60 cars and two engines.
Going south from here it has averaged
an extra freight nearly every day.
With the large number of big engines
required in the haul over the Siskiyou
it has been pretty lively in the Ash-
land yards.

Dr. Price's Cream Baking Powder

The highest award was given on every claim, comprising
superiority in leavening power, keeping properties, purity and
excellence. This verdict has been given by the best jury
ever assembled for such a purpose, backed by the recommend-
ation of the Chief Chemist of the United States Department
of Agriculture, Washington, D. C., who made an elaborate
examination and test of all the baking powders. This
is pre-eminently the highest authority on such matters in
America.

This verdict conclusively settles the question and
proves that Dr. Price's Cream Baking Powder is
superior in every way to any other brand.

NOTE.—The Chief Chemist rejected the Alum baking powders, stating
that they were not pure and that they contained toxic substances.
